True Divided Lites (TDL) - Arch

Prestige Entries is in the business of first impressions because homeowners agree that the most important feature of the exterior of their home is the entryway. It is the most often viewed and is the focal point of any home's exterior. Prestige's premium mahogany doors are made from rich furniture quality mahogany and are correct in every architectural detail. The combination of the finest materials available and superior methods of construction allow Prestige Entries to offer you an exceptional entry for your home.

True Divided Lites (TDL) - SQUARE

Prestige Entries is proud to manufacture its products with old world design using True Divided Lites "TDL". This method utilizes individual insulated glass panels, typically with beveled or flemish low-e glass, that incorporate individual wood dividers.

Our doors are manufactured with highly split resistant panels. These panels are produced with an engineered solid core. Along with engineered stiles and rails, a Prestige Entries' door is hand-crafted to not only look great on your home, but also to last as well.

All square top doors are available with rectangle transoms, either 1 lite or with any true divided lite design, and sidelites

Craftsman Doors

A Prestige Entries' Craftsman door dresses up both the entrance into your home and the entryway into your life. Experience the beauty and warmth of wood with a Prestige Craftsman door. Influenced by the English Arts and Crafts movement and inspired by the timeless appeal of fine craftsman architecture and furniture, Prestige Entries reflects this style in their handcrafted Craftsman entry doors. One great authenticity test of Craftsman style is how the door is designed, all versions have glass panes in the upper third of the door, separated from the bottom paneled portion by a thick piece of trim with an optional dentil shelf.

Decorative & Privacy Glass Doors

Prestige Entries' Decorative and Privacy Glass Doors utilize insulated glass surrounding a custom handmade leaded beveled glass design. These designs give character to an already rich and warm door and dress up the front of any home. All decorative and privacy doors come standard with a raised moulding profile on the exterior of the door further enhancing the visual depth.

Iron Grille

Old world craftsmanship is what inspired our Iron Grille Collection. These five designs bring an element of rustic character to our mahogany doors. All iron grille doors come with raised moulding surrounding the grille and panel bottom on the exterior side of the door. To provide the cleanest look, Prestige has a proprietary system that integrates the grille into the glazing system rather than attaching the grille to the face of the door. One additional benefit is that the grilles swing open to allow easy access for cleaning the exterior glass surface.
