Pre-installation Unit Inspection Form

Date of Delivery:
Address of Jobsite:
PO or order or reference #:

Inspection Instructions:

- Complete this form within 48 hours of installation. If any issues are identified, document them thoroughly with written descriptions and supporting photos. Submit the form to your dealer.

Check all the following	*Issues to Report*
Paint Finish - Note any blemishes, scratches, gouges, or marks that cannot be adequately addressed with the supplied touch-up paint. - Refer to the Paint Warranty for more information.	

Size and Fitment Accuracy
- Confirm that the door size is within ±1/8" of the specified dimensions.
- With the door standing plumb in the frame:
  o Door should be seated comfortably in the hinges.
  o Reveals should be consistent on all sides.
  o Door should sit flush and apply even compression to the weatherstrip.
- If any of these conditions are not met, provide images and video to your dealer before proceeding with installation.	

Unit Design / Configuration - Verify that the door unit matches the signed CAD drawing in every detail. - Report any discrepancies immediately.	
Supplied Parts - Confirm all components are included: sweeps, door plugs, ball bearings, grease packets, etc. - Report any missing parts.	

Notice: FAILURE TO RETURN FORM AS DIRECTED CONSTITUTES AN ACCEPTANCE OF THE CONDITION OF THE DOOR AS-IS.
